

Do you value your life?

If your life is worth a ten-penny nail you need some protection from the constantly occurring visitations of murderous burglars. Every night finds a new victim and the next day finds him in our store preparing against future molestation. Just a day late—Remember that old adage, "Don't put off till tomorrow what you should do today"; but get the proper protection in one of our revolvers.

**WHY
TAKE
CHANCES**
It is a well-known fact that rats are active agents in spreading disease.
See that your premises are free from this pest.
Some so-called rat poisons merely serve to fatten those rats and mice which are lucky enough to get a chance at it.

RATS MUST GO
is sure, speedy and absolutely certain death to rats and mice.

RATS MUST GO
is poison, and a real poison, one of the kind that kills.

One can will effectively demonstrate this fact.

WONDERFUL FEATS

The wonders of some of the acts of the excellent program furnished by the World's Entertainers have set everybody in town agog, but it is doubtful so easily are the most difficult feats accomplished, if the realization of what difficulties are overcome are fully estimated. The swelling muscles on Arras' magnificent torso, neck and arms, merrily proclaim the efforts called forth, but the slow and graceful half circle made by his body while supported by his wrists is a feat that only a first rate amateur gymnast can fully appreciate. So with Salerno, try and do one of his simplest tricks and realize the natural aptitude added to long months of unwearying patience that must be needed to successfully balance a cocktail on three straws on the forehead while playing handball with the liquor stand and other apertures of the concoction. The airy lightness and whirling of the two dancers, the ingenuity of the Casings' feats, all have taken long evolution.

The difficulties of some of the cycling tricks of the St. Omés may be imagined by those who have tried to pick up a handkerchief or ride a little way down the street with the front wheel in air but one shudders mentally when thought is given to the hundred bumps that both of them must have experienced in their more difficult tricks. Salerno too must have done some quick dodging in his apprenticeship.

There are still a number who have not yet had an opportunity of securing seats for the first program and a number more who are going again while changes in the program are announced for tomorrow night. Powell the "wiz" has an astonishing feat yet in reserve, if not "up his sleeve" in reality. There will also be a bairnmatine on Saturday afternoon when it will be an unhappy youngster who will be prevented from going to the show and afterwards discussing every feat with his schoolmates or worrying the parental mind by attempted repetition of Salerno, Onge or Arras.
